

LOVELY ECO HOUSE
HOME IS WHERE THE HEART IS

MOBILE HOME

NO BUILDING PERMIT REQUIRED

Advantages of a mobile home compared to campers:

- All-season capability. Living in winter temperatures down to -30°C.
- Comfortable and convenient bathroom and shower.
- Large, spacious refrigerator.
- Modularity: combining several homes into one structure.
- High ceiling. Convenient for daily use, suitable for tall people and those with claustrophobia.

Five reasons to choose an all-season mobile home on wheels:

- No building permit required. Can be installed anywhere, even where construction is prohibited.
- Versatility of use. You can live in one place or travel year-round.
- No utility bills.
- Cost. Mobile homes are cheaper than brick houses.
- Ideal for organizing campsites, glamping, or modular-type hotels.
